Summary of the Course

Subject Area: Chinese Studies

This course is designed for students who have acquired a basic level of spoken Chinese (Mandarin) and a working knowledge of up to eight hundred simplified characters in their 1.5 years of study, as well as for those students who enter the Chinese language program with an equivalent knowledge of Chinese characters. It is designed for students who do not come from a Chinese cultural and language (or dialect) background. In this course, you will improve your Chinese skills in the areas of speaking, listening, reading, and writing, and will make significant gains in your communicative skills in oral and written forms. You will also be exposed to aspects of Chinese history, culture, politics, and society relevant to given texts in Chinese in language acquisition.

Course Learning Outcomes

1. Apply effective strategies for reading Chinese texts from various sources and on a variety of topics
2. Compose short essays in Chinese on a given topic with confidence
3. Initiate everyday conversations and engage in discussions in Chinese
4. Demonstrate critical appreciation and nuanced knowledge of Chinese linguistic behaviour, society and culture

Teaching Strategies

The course comprises two components of face-to-face teaching and learning per week: (1) The lectures provide an introduction to grammar, key language and cultural issues in each lesson, with practices to consolidate new knowledge in language acquisition; (2) The tutorials focus on workbook exercises, with opportunities for students to practice oral Chinese and address issues in reading and writing. You should preview the new words before each lecture and do the exercises in the workbook before each tutorial. You are expected to allocate additional time for self-study and partner language practice, which will be checked weekly in lectures and tutorials. Engagement with the course content will be further assessed by a mid-term test and an end-of-term final test.

Academic Honesty and Plagiarism

Plagiarism is using the words or ideas of others and presenting them as your own. It can take many forms, from deliberate cheating to accidentally copying from a source without acknowledgement.

UNSW groups plagiarism into the following categories:

Copying: using the same or very similar words to the original text or idea without acknowledging the source or using quotation marks. This also applies to images, art and design projects, as well as presentations where someone presents another's ideas or words without credit.

Inappropriate paraphrasing: Changing a few words and phrases while mostly retaining the original structure and/or progression of ideas of the original, and information without acknowledgement. This also applies in presentations where someone paraphrases another's ideas or words without credit and to piecing together quotes and paraphrases into a new whole, without appropriate referencing.

Collusion: working with others but passing off the work as a person's individual work. Collusion also includes providing your work to another student before the due date, or for the purpose of them plagiarising at any time, paying another person to perform an academic task, stealing or acquiring another person's academic work and copying it, offering to complete another person's work or seeking payment for completing academic work.

Inappropriate citation: Citing sources which have not been read, without acknowledging the "secondary" source from which knowledge of them has been obtained.

Duplication ("self-plagiarism"): submitting your own work, in whole or in part, where it has previously been prepared or submitted for another assessment or course at UNSW or another university.

Correct referencing practices:

- Paraphrasing, summarising, essay writing and time management
- Appropriate use of and attribution for a range of materials including text, images, formulae and concepts.

Individual assistance is available on request from The Learning Centre (<http://www.lc.unsw.edu.au/>). Students are also reminded that careful time management is an important part of study and one of the identified causes of plagiarism is poor time management. Students should allow sufficient time for research, drafting and proper referencing of sources in preparing all assessment items.

UNSW Library also has the ELISE tool available to assist you with your study at UNSW. ELISE is designed to introduce new students to studying at UNSW but it can also be a great refresher during your study.

Completing the ELISE tutorial and quiz will enable you to:

- analyse topics, plan responses and organise research for academic writing and other assessment tasks
- effectively and efficiently find appropriate information sources and evaluate relevance to your needs
- use and manage information effectively to accomplish a specific purpose
- better manage your time

- understand your rights and responsibilities as a student at UNSW
- be aware of plagiarism, copyright, UNSW Student Code of Conduct and Acceptable Use of UNSW ICT Resources Policy
- be aware of the standards of behaviour expected of everyone in the UNSW community
- locate services and information about UNSW and UNSW Library

Some of these areas will be familiar to you, others will be new. Gaining a solid understanding of all the related aspects of ELISE will help you make the most of your studies at UNSW.
