Summary of the Course

Why does global inequality persist? Why do some countries remain poor, beset by conflict, while others leap ahead? What role do international and state actors play in promoting better development, or in holding it back? In order to find the answer to these questions, you will learn about contemporary academic and policy debates about international development and the quest to find solutions to global inequality and persistent underdevelopment.

You are encouraged to learn different ways to think about development, understand the role of international actors in promoting specific development outcomes, evaluate the strengths and weaknesses of different explanatory accounts, find your own position and apply your critical insight to real-world challenges. You will learn about a variety of structural forces that can impede development outcomes, including conflict, communicable diseases, natural resources, geo-politics, and governance institutions. In addition to international actors, you will learn about the growing role of non-governmental organizations and civil society in a global world, and explore the role of China and Japan as emerging international development actors.

Course Learning Outcomes

1. Identify, analyse and critique leading explanations for development outcomes.
2. Analyse the complex relationship between conflict and development, and critically evaluate its implications for theory, policy and practice.
3. Access and interpret qualitative and quantitative data relevant to international development.
4. Identify and critically analyse the roles of international development actors, including their change over time.

Teaching Strategies

This course consists of a two-hour lecture and one-hour tutorial each week. Lectures will expose students to a range of theoretical approaches, historical trends, ideas, forms of evidence, and empirical case studies. Lecture material will also cover the core skills of analysis, evaluation, and communication that will be graded in the course assessments. Tutorials provide opportunities for course material to be interrogated through in-depth discussion, debate and constructive peer critique. Although the majority of tutorials will be led by tutorial group presentations, all students need to attend having covered the topic's readings in depth in preparation for discussion.

Assessment

Students are expected to put their names and student numbers on every page of their assignments. Further information on assessments, including marking criteria, will be provided in lectures, tutorials, and via Moodle.

Assessment Tasks

Assessment task	Weight	Due Date	Student Learning Outcomes Assessed
Media Blog Article	25%	Not Applicable	1,3,4
Essay	50%	Not Applicable	1,2,3,4
Group presentation	25%	Not Applicable	1,2,3

Assessment Details

Assessment 1: Media Blog Article

Start date: Not Applicable

Length: 800

Details:

Students to submit a media article/blog (800 words) that identifies and explores a contemporary international development issue, modelled on the style of a media outlet or blog of your choice. Students will receive feedback and a numerical grade within ten working days of submission.

Assessment 2: Essay

Start date: Not Applicable

Length: 2000

Details:

2000 word essay. Students will receive written feedback and a numerical grade within ten working days of submission.

Turnitin setting: This assignment is submitted through Turnitin and students can see Turnitin similarity reports.

Assessment 3: Group presentation

Start date: Not Applicable

Details:

Students will work in groups of 4-5 to develop and deliver a presentation on a relevant topic. Students will receive written feedback and a numerical grade within ten working days of completion.

Turnitin setting: This is not a Turnitin assignment

Attendance Requirements

Students are strongly encouraged to attend all classes and review lecture recordings.

Course Evaluation and Development

Active and constructive student feedback is taken seriously, being the basis upon which improvements to the course are made. Student evaluative feedback is gathered periodically using UNSW's Course and Teaching Evaluation and Improvement (CATEI) process. Half-way through the course students will be asked to complete an anonymised and informal evaluation survey. In the final week, students will be asked to complete a formal evaluation survey. Suggestions are also welcome throughout the course.

Submission of Assessment Tasks

Turnitin Submission

If you encounter a problem when attempting to submit your assignment through Turnitin, please telephone External Support on 9385 3331 or email them on externalteltsupport@unsw.edu.au . Support hours are 8:00am – 10:00pm on weekdays and 9:00am – 5:00pm on weekends (365 days a year). If you are unable to submit your assignment due to a fault with Turnitin you may apply for an extension, but you must retain your ticket number from External Support (along with any other relevant documents) to include as evidence to support your extension application. If you email External Support you will automatically receive a ticket number, but if you telephone you will need to specifically ask for one. Turnitin also provides updates on their system status on Twitter.

Generally, assessment tasks must be submitted electronically via either Turnitin or a Moodle assignment. In instances where this is not possible, it will be stated on your course's Moodle site with alternative submission details.

For information on how to submit assignments online via Moodle: <https://student.unsw.edu.au/how-submit-assignment-moodle>

Academic Honesty and Plagiarism

Plagiarism is using the words or ideas of others and presenting them as your own. It can take many forms, from deliberate cheating to accidentally copying from a source without acknowledgement.

UNSW groups plagiarism into the following categories:

Copying: using the same or very similar words to the original text or idea without acknowledging the source or using quotation marks. This also applies to images, art and design projects, as well as presentations where someone presents another's ideas or words without credit.

Inappropriate paraphrasing: Changing a few words and phrases while mostly retaining the original structure and/or progression of ideas of the original, and information without acknowledgement. This also applies in presentations where someone paraphrases another's ideas or words without credit and to piecing together quotes and paraphrases into a new whole, without appropriate referencing.

Collusion: working with others but passing off the work as a person's individual work. Collusion also includes providing your work to another student before the due date, or for the purpose of them plagiarising at any time, paying another person to perform an academic task, stealing or acquiring another person's academic work and copying it, offering to complete another person's work or seeking payment for completing academic work.

Inappropriate citation: Citing sources which have not been read, without acknowledging the "secondary" source from which knowledge of them has been obtained.

Duplication ("self-plagiarism"): submitting your own work, in whole or in part, where it has previously been prepared or submitted for another assessment or course at UNSW or another university.

Correct referencing practices:

- Paraphrasing, summarising, essay writing and time management
- Appropriate use of and attribution for a range of materials including text, images, formulae and concepts.

Individual assistance is available on request from The Learning Centre (<http://www.lc.unsw.edu.au/>). Students are also reminded that careful time management is an important part of study and one of the identified causes of plagiarism is poor time management. Students should allow sufficient time for research, drafting and proper referencing of sources in preparing all assessment items.

UNSW Library also has the ELISE tool available to assist you with your study at UNSW. ELISE is designed to introduce new students to studying at UNSW but it can also be a great refresher during your study.

Completing the ELISE tutorial and quiz will enable you to:

- analyse topics, plan responses and organise research for academic writing and other assessment tasks
- effectively and efficiently find appropriate information sources and evaluate relevance to your needs
- use and manage information effectively to accomplish a specific purpose
- better manage your time

- understand your rights and responsibilities as a student at UNSW
- be aware of plagiarism, copyright, UNSW Student Code of Conduct and Acceptable Use of UNSW ICT Resources Policy
- be aware of the standards of behaviour expected of everyone in the UNSW community
- locate services and information about UNSW and UNSW Library

Some of these areas will be familiar to you, others will be new. Gaining a solid understanding of all the related aspects of ELISE will help you make the most of your studies at UNSW.
