### Summary of the Course

Subject Area: *Politics and International Relations*

This course can also be studied in the following specialisation: *Asian Studies*

The Indo-Pacific is a new and dynamic region, one that poses significant challenges and opportunities. In this course, you will explore the concept of the Indo-Pacific as a coherent regional construct, one that reflects the increasing interaction and connectivity between the Asia-Pacific and the Indian Ocean regions. The concept of the Indo-Pacific is contested, and you will examine different conceptions of the Indo-Pacific and where its regional boundaries lie. In doing so, you will also consider different approaches to regions and regionalism, and the problems and prospects therein. The course will also introduce you to the significant political, strategic and economic issues that the region poses and the foreign policies of major regional actors, including India, China, the US, Japan and Australia. These issues and challenges are both interstate and transnational in nature, and include strategic rivalry and competition between major regional actors, counter-piracy, maritime surveillance, and trade.

### Course Learning Outcomes

1. Analyse different approaches to the construction of regions and regionalism and apply these to the concept of the Indo-Pacific
2. Outline significant contemporary issues and challenges in the Indo-Pacific
3. Evaluate the scholarly literature on key issues and challenges in the Indo-Pacific
4. Conduct independent and scholarly research.
5. Construct an evidence-based argument both orally and in writing.

### Teaching Strategies

The course explores the developments in the evolving Indo-Pacific region through the lens of the academic discipline of international relations. It begins with the conceptualisation of a "region" and then focuses on the interstate dynamics from the levels of both global and regional geopolitics. The course is taught through a 2-hour lecture and a 1-hour tutorial. The lectures provide background material and analyses drawn from the expertise of the lecturer and from the relevant academic literature. The 1-hour tutorial will be led by a tutor and will consist of student presentations and class discussion. It will be based on readings, analysis and independent interpretation of a selection of secondary sources. The tutorial discussion is designed to develop students' understanding of the previous week's material, their ability to grasp empirical and conceptual issues, as well as their communicative and interpretative skills. Students must complete the essential readings every week in preparation for tutorials and, if possible, further reading from the supplementary list of recommended books or articles.

Class facilitation	25%	Not Applicable	2,3,5
Critical Review	25%	01/07/2019 05:00 PM	3,4,5

## Assessment Details

### Assessment 1: Class facilitation

**Start date:** Not Applicable

**Details:** 10-15 min class facilitation based on assigned readings in groups of 3-4 students followed by discussion. All students will receive the same mark. Students will receive written feedback within 10 working days of their facilitation.

#### Additional details:

You are required to serve as “**chief discussants**” of the readings in the seminar at least once during the course. Depending on the size of the class, each week three or four students will work as a team and lead off the discussion. The presenters must make a 15-20 min presentation of the week’s readings and facilitate discussion. Rather than simply summarizing the readings under question (presumably all will have read it), the discussion facilitators should critically engage with the material and tease out specific questions or problems that appear worthy of attention. All students in a group delegated with the responsibility to lead the discussion will receive the same mark.

**Turnitin setting:** This is not a Turnitin assignment

### Assessment 2: Critical Review

**Start date:** Not Applicable

**Length:** 750 words

**Details:** The critical review requires students to select one academic article from a week’s reading and demonstrate a close engagement and analysis with the main arguments and claims of that article. The word length of the review is 750 words. Feedback: Students will receive written feedback and a numerical grade within two weeks of submission through the University’s Learning Management System (LMS).

#### Additional details:

You are required to prepare a “reaction piece,” which should present your response to, and critique of, the major arguments from a week’s reading. You can select the week of your interest to reflect on, but your selection should be different from the week of your class facilitation (Assignment 1). This essay is due on July 1. You will receive written feedback within 10 working days.

**Turnitin setting:** This assignment is submitted through Turnitin and students do not see Turnitin similarity reports.

### **Assessment 3: Major Essay**

**Start date:** Not Applicable

**Length:** 2500 words

**Details:** The essay is the final assessment of the course. It requires students to demonstrate engagement with the core themes and issues raised in the course and their ability to construct a persuasive and well-evidenced argument. The word length of the essay is 2500 words. **Feedback:** Students will receive written feedback and a numerical grade within two weeks of submission through the University's Learning Management System (LMS). The feedback sheet/rubric will be available to students at the start of the course so that they can work towards specified standards.

#### **Additional details:**

This final essay can be on a topic of your interest but based on or related to the content of the course and/or tutorial discussions. This essay is the final assessment for the course. Throughout the term, you should think about a topic of your interest and how it can be analyzed. The final essay is due on August 19.

**Turnitin setting:** This assignment is submitted through Turnitin and students do not see Turnitin similarity reports.

## Academic Honesty and Plagiarism

Plagiarism is using the words or ideas of others and presenting them as your own. It can take many forms, from deliberate cheating to accidentally copying from a source without acknowledgement.

UNSW groups plagiarism into the following categories:

**Copying:** using the same or very similar words to the original text or idea without acknowledging the source or using quotation marks. This also applies to images, art and design projects, as well as presentations where someone presents another's ideas or words without credit.

**Inappropriate paraphrasing:** Changing a few words and phrases while mostly retaining the original structure and/or progression of ideas of the original, and information without acknowledgement. This also applies in presentations where someone paraphrases another's ideas or words without credit and to piecing together quotes and paraphrases into a new whole, without appropriate referencing.

**Collusion:** working with others but passing off the work as a person's individual work. Collusion also includes providing your work to another student before the due date, or for the purpose of them plagiarising at any time, paying another person to perform an academic task, stealing or acquiring another person's academic work and copying it, offering to complete another person's work or seeking payment for completing academic work.

**Inappropriate citation:** Citing sources which have not been read, without acknowledging the "secondary" source from which knowledge of them has been obtained.

**Duplication ("self-plagiarism"):** submitting your own work, in whole or in part, where it has previously been prepared or submitted for another assessment or course at UNSW or another university.

Correct referencing practices:

- Paraphrasing, summarising, essay writing and time management
- Appropriate use of and attribution for a range of materials including text, images, formulae and concepts.

Individual assistance is available on request from The Learning Centre (<http://www.lc.unsw.edu.au/>). Students are also reminded that careful time management is an important part of study and one of the identified causes of plagiarism is poor time management. Students should allow sufficient time for research, drafting and proper referencing of sources in preparing all assessment items.

UNSW Library also has the ELISE tool available to assist you with your study at UNSW. ELISE is designed to introduce new students to studying at UNSW but it can also be a great refresher during your study.

Completing the ELISE tutorial and quiz will enable you to:

- analyse topics, plan responses and organise research for academic writing and other assessment tasks
- effectively and efficiently find appropriate information sources and evaluate relevance to your needs
- use and manage information effectively to accomplish a specific purpose
- better manage your time

- understand your rights and responsibilities as a student at UNSW
- be aware of plagiarism, copyright, UNSW Student Code of Conduct and Acceptable Use of UNSW ICT Resources Policy
- be aware of the standards of behaviour expected of everyone in the UNSW community
- locate services and information about UNSW and UNSW Library

Some of these areas will be familiar to you, others will be new. Gaining a solid understanding of all the related aspects of ELISE will help you make the most of your studies at UNSW.
