Examines the workings of government and non-government aid agencies at the national and international level. This information is related to case studies which demonstrate skills to negotiate within the international aid systems, secure funding, lobby and advocate to redefine development assistance.

Course Learning Outcomes

1. Demonstrate an understanding of the purposes of foreign aid and the functions of international aid agencies.
2. Critically analyse the role of international and local politics on the allocation, design and evolution of international aid.
3. Understand, interpret and critique the impacts of international development actors on the structure and delivery of aid.
4. Recognise and debate the ethics of aid, and understand their own ethical positions.

Teaching Strategies

Students are expected to undertake a significant amount of independent research into the issues under consideration; to use an analytical approach to their work; and to demonstrate their ability to apply theory and think critically. Students are responsible for managing their own independent learning, and for raising with the course convenor issues or problems they encounter. Students are expected to take a participatory approach in classes so that knowledge is shared, questioned and debated. Participation is not graded, but it is a course expectation that assigned readings will be read thoroughly by all participants prior to each seminar.

Assessment

Please note additional information on the course, sources of assistance and other helpful information for students will be available on the course Moodle site.

Attendance Requirements

Attendance Requirements

In this course you are expected to attend at least 80% of classes. This means that you must attend 10/12 of the seminars held in Mathews 105. You are not required to attend at UNSW on the reading week, but expected to complete the assigned reading. If you attend less than 80% of classes, you may be refused final assessment. This means that if you do not attend at least 80% of possible classes your final assignment or exam may receive a mark of zero. For the purpose of attendance monitoring, the final assessment for this course is the major and last written research essay worth 50% of your overall grade for this course. This is the assessment item that will be graded at zero if you do not meet the attendance requirement for this course.

Turnitin Submission

If you encounter a problem when attempting to submit your assignment through Turnitin, please telephone External Support on 9385 3331 or email them on externalteltsupport@unsw.edu.au. Support hours are 8:00am – 10:00pm on weekdays and 9:00am – 5:00pm on weekends (365 days a year). If you are unable to submit your assignment due to a fault with Turnitin you may apply for an extension, but you must retain your ticket number from External Support (along with any other relevant documents) to include as evidence to support your extension application. If you email External Support you will automatically receive a ticket number, but if you telephone you will need to specifically ask for one. Turnitin also provides updates on their system status on Twitter.

Submitting Assessment Late

An assessed task is deemed late if it is submitted after the specified time and date as set out in the course Learning Management System (LMS).

The late penalty is the loss of 5% of the total possible marks for the task for each day or part thereof the work is late. Lateness will include weekends and public holidays. This does not apply to a task that is assessed but no mark is awarded.

Work submitted fourteen (14) days after the due date will be marked and feedback provided but no mark will be recorded. If the work would have received a pass mark but for the lateness and the work is a compulsory course component, a student will be deemed to have met that requirement. This does not apply to a task that is assessed but no mark is awarded.

Work submitted twenty-one (21) days after the due date will not be accepted for marking or feedback and will receive no mark or grade. If the assessment task is a compulsory component of the course a student will automatically fail the course.

Please complete Elise as early as possible

The Elise Study Skills tutorial which familiarizes students with academic writing, research and using information responsibly is highly recommended for all commencing students with the quiz to completed as early as possible in their first semester at UNSW. All postgraduate coursework students are strongly encouraged to take the tutorial (<http://subjectguides.library.unsw.edu.au/elise>).

Course Evaluation and Development

SOCW7852 uses University mechanisms to gather feedback from students. You are also welcome at any time to submit informal feedback specific to individual tutorials and lectures to the course convenor. Feedback is always welcome and is taken seriously. Continual enhancements are made to learning and teaching activities on the basis of student feedback.

In response to suggestions in 2018 in 2019 the reading list has been improved to limit the range of readings but students can still consult the convenor for assistance with resources for research essays on specialised topics pursued. Stricter limits on presentation times will be better enforced to ensure general group discussion time is not eroded.

Academic Honesty and Plagiarism

Plagiarism is using the words or ideas of others and presenting them as your own. It can take many forms, from deliberate cheating to accidentally copying from a source without acknowledgement.

UNSW groups plagiarism into the following categories:

Copying: using the same or very similar words to the original text or idea without acknowledging the source or using quotation marks. This also applies to images, art and design projects, as well as presentations where someone presents another's ideas or words without credit.

Inappropriate paraphrasing: Changing a few words and phrases while mostly retaining the original structure and/or progression of ideas of the original, and information without acknowledgement. This also applies in presentations where someone paraphrases another's ideas or words without credit and to piecing together quotes and paraphrases into a new whole, without appropriate referencing.

Collusion: working with others but passing off the work as a person's individual work. Collusion also includes providing your work to another student before the due date, or for the purpose of them plagiarising at any time, paying another person to perform an academic task, stealing or acquiring another person's academic work and copying it, offering to complete another person's work or seeking payment for completing academic work.

Inappropriate citation: Citing sources which have not been read, without acknowledging the "secondary" source from which knowledge of them has been obtained.

Duplication ("self-plagiarism"): submitting your own work, in whole or in part, where it has previously been prepared or submitted for another assessment or course at UNSW or another university.

Correct referencing practices:

- Paraphrasing, summarising, essay writing and time management
- Appropriate use of and attribution for a range of materials including text, images, formulae and concepts.

Individual assistance is available on request from The Learning Centre (<http://www.lc.unsw.edu.au/>). Students are also reminded that careful time management is an important part of study and one of the identified causes of plagiarism is poor time management. Students should allow sufficient time for research, drafting and proper referencing of sources in preparing all assessment items.

UNSW Library also has the ELISE tool available to assist you with your study at UNSW. ELISE is designed to introduce new students to studying at UNSW but it can also be a great refresher during your study.

Completing the ELISE tutorial and quiz will enable you to:

- analyse topics, plan responses and organise research for academic writing and other assessment tasks
- effectively and efficiently find appropriate information sources and evaluate relevance to your needs
- use and manage information effectively to accomplish a specific purpose
- better manage your time

- understand your rights and responsibilities as a student at UNSW
