

Course

# Policy Analysis

SOSS3003

6 Units of Credit

## Overview

This course asks what are some concrete ways to contribute to and influence policy? In this course, you will gain experience in dealing with 'real world' policy problems through a series of case studies on topics drawn from current policy issues. You will develop skills in problem analysis, working in groups, and oral and written communication (including submission writing). You will also develop an understanding of the practical constraints faced by social scientists working in applied policy settings.
